About

I have production experience since 2016 and working with frontend & backend, also can making infra things.

I'm product development & team play oriented.
So I like working with Tech as well as with Design, CustDev and Agile for better business results.

Experience

Mera.fit

Side project development
This is a project I develop in my free time with a stack: Stripe, Apollo, GraphQL, NodeJS, Prisma, PostgreSQL, Docker, Github Actions, React, Gatsby, TypeScript
